## DALIA — MDT 2026

The introduction of a side table offered in two heights represents a spontaneous step in the expansion of the Molteni&C Outdoor collection. An accessory with an apparently essential form—square top and central base—that nevertheless reveals a strong material identity through the careful choice of finishes. The gres top, proposed in the tone coordinated with the much-loved Sway series, or in the cement version available in the colors Dolomite, Nuvia White, Selva Green, Siena Brown and stoneware—the same as the Louisa family, an iconic object in the Molteni&C catalogue—gives the side table an elegant and distinctive presence, capable of dialoguing with all the seating, sofas and armchairs of the outdoor collection.

The product may be used outdoors but requires particular care in the event of rain

Product suitable for collective uses (Contract)

The product is sent in multiple packaged and/or flat packed
