## ARC — FOSTER + PARTNERS 2010

1—  
3

The table Arc embodies the innovative concepts which distinguish it. The base shape is inspired by the technostructures currently used in modern building: a new “light” cement which mixes colour and a special fibrous material obtaining resistant structures with a low specific weight. Printed in a single block and dyed. It allows the manufacture of complex shapes, the Arc table combines the structural characteristics of strength and elasticity with innovative concepts such as complete recyclability and low environmental impact of the production cycle.

**FINISHES**

**BASE FINISHES**

white - grey - bronze - black - brick red

**TOP FINISHES**

extralight transparent glass - black marquina marble - white Carrara marble - emperador dark marble - orient grey marble - Sahara noir marble - calacatta gold marble - silver wave marble - green alpine marble

**NOTES**

- ▶ The top of extra-light transparent tempered glass, th 12 mm is always with bevel except for articles ATO2 and ATO5.
- ▶ A certain amount of irregularities (small fissures) could be expected on the marble top th 20 mm. Such irregularities are inherent to types of the marble used.

**TECHNICAL INFORMATION**

**BASE**

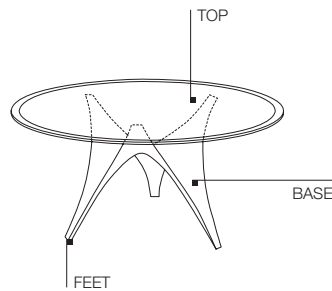

In cement and organic fibre composite, moulded in a single block and coloured during mixing.

**TOP**

Extra clear, tempered, transparent glass, 12 mm th, with bevelled edge (excepting ATO2 and ATO5), or in marble, 20 mm th., in the range of finishes with anti-stain, water-repellent treatment.

**FEET**

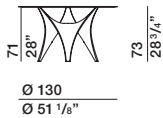

In non slip plastic material.
