SURF — YABU PUSHELBERG 2019

1—
5

Thanks to their experience in the hospitality field and in exploring the nature of organic forms well beyond any traditional approach, Yabu Pushelberg design seating, unfettered by the constrictions of excessive modularity and rich in unexpected details. Ideal for residential or hospitality projects, such as hotels or offices. Seats all-one with the base, with rounded forms supporting snug, slightly protruding backrests, make Surf a design that is not only ergonomically perfect but also visually appealing. This excellent result is due to the use of differentiated polyurethane foam technology. Artfully designed rectilinear, chaise longue, corner and terminal elements, partially devoid of backrests, give rise to multiple compositions suitable for situations of all kinds. Surf is also an elegant little “dumb waiter” table, from the marble base and the wooden top complete with a small handle for moving it easily.
