The Chelsea armchairs, like the chairs from the same product family, carry the essence of contemporary design and the memory of tradition. Their personality reaches toward the future, which brings with it the certainty of experience. The strong mark of the solid wood structure balances the fluid lines of the backrests blending ergonomics and elegance to create comfortable chairs. The value of handcraftsmanship is expressed in the masterful use of high quality raw materials: wood, fabric and leather. Details were designed and applied with passion and care, which underscores the versatile nature and appeal of these pieces.
