## BELGRAVIA — RODOLFO DORDONI 2018

1—  
3

Belgravia, the aristocratic district of London with its impressive Victorian mansions, inspired this family of tables with their refined fluid shapes. A bridge-shaped wooden frame, with a double inclination outline and a sophisticated joinery technique, enables the legs and the load-bearing beam of the table to be joined. The tops in the three noble materials of stone, wood and glass, enrich the whole, creating great design continuity. Different dimensions allow the tables to be used in a variety of settings where Belgravia will always be the undisputed protagonist.

## TECHNICAL INFORMATION

### BRIDGE-SHAPED FRAME

Medium density layered fiber panel, solid beech wood (*fagus silvatica*), formed and covered with sliced veneer in Eucalyptus (*Eucalyptus globulus*) and Oak (*Quercus*).  
Additional corner piece in aluminum, feet in plastic material with felt supports.

### CENTRAL FRAME

Tubular iron with epoxy coating and top adjustment system.

### WOOD TOP

Wood particle board paneling covered with sliced veneer in Eucalyptus or Oak.

### GLASS TOP

Support in wood particle board paneling with melamine finish.  
Transparent tempered glass, thickness 4 painted in colors from the range.  
Head profile in painted extruded aluminum.

### MARBLE TOP

Marble with protective mesh in the finishes from the range.
