slate Hybrid lacquered pull-out doors, pewter Outline vertical handles, backlit lid, black oak inner Ratio base with pewter profile, black lava stone top th. 90mm, pewter Wing lighting shelves, pewter skirting

Ratio architectural creation is defined by its interplay of lightweight volumes juxtaposed with bold and solid forms. Vincent Van Duysen's approach is structural, based on the presence of building like compositional forms and on the skilful use of the materials, of which he is an undisputed interpreter. Metal grids define the core architecture, including wall units, columns, hoods, and accessories. Tops of varying thicknesses are attached to slender and minimal techno/structural elements, creating an elegant balance. Our patented ultra-slim 13 mm cabinet door is a testament to unique design. It combines horizontal and vertical elements that frame and define the doors, creating a distinctive look. One of the standout features is the ability to create suspended compositions, adding a sense of airiness and sophistication to your space. Vincent Van Duysen presents an island solution with meticulously designed furniture and accessories to cater to discerning and sophisticated users. Its standout feature is that the entire kitchen seems to be delicately perched on two ultra-thin panels.

- PLUSES
- Design by Vincent Van DuysenA kitchen that takes centre stage in any space
- Strong architectural identity
- Interplay of different surface textures
- Formal austerity
- Unique and highly recognizable design
- Balance between solid and empty volumes

## Handle opening kitchen

H. unit structure = 801 mm H. door = 797 mm H. kitchen with 60 mm skirting = 861 mm H. kitchen with 100 mm skirting = 901 mm TH. door panel 13 mm (aluminium + stratificated MDF) TH. handle profile 28 mm TH. slated door 30 mm D. Base = 331-595-745mm

## Door with handle profile

The patented 13 mm ultra-thin door is the pivotal element of the structure. Ratio perfectly blends horizontal and vertical elements that enclose and define the doors, giving them a distinct look. This design is also available with a new handle option featuring a bronze or zinc finish.
