

## PANTALICA — ELISA OSSINO 2025

Imagined by Milan-based designer, Elisa Ossino, the Pantalica outdoor concept for Molteni&C is an ode to art, circularity, and ancient Mediterranean inspiration. Complementing Molteni&C's Timeout and Landmark collections, Pantalica reimagines outdoor spaces by fusing tradition with modern living, offering versatile styles to suit diverse tastes while prioritizing elegance and respect for the environment. The collection includes:

- Pantalica Daybed - upon a sturdy aluminum frame embellished with weather-resistant polyethylene weave, the supportive headrest cushion and daybed liner are molded in a compelling cylindrical pattern, contrasting the frame's sinuous shape with distinctive linearity. The cushions feature a removable cover available in any Outdoor Collection fabric.
- Pantalica Coffee Table - a sculptural addition to outdoor ambiances. Crafted with a sturdy aluminum frame, the table is composed of four cylindrical bases and a round top embellished in weather-resistant synthetic rattan weave made of polyethylene.
- Pantalica Stools - designed for multi-functional use as small tables or additional seating, the stools' sturdy aluminum frames are composed of one or four cylindrical base and a cube- or square-shaped top. Their supple top makes for a comfortable seat without requiring a cushion.
- Pantalica Rug is crafted from weather-resistant polypropylene in a loose weave that allows light and air to pass through. The design makes use of strips of intermittent length to create an irregular edging for an artistic finish.

Removable cover

The product is sent in multiple  
packaged and/or flat packed
