ATTICO — NICOLA GALLIZIA 2018

1—
3

Attico is a collection of coffee tables featuring a sophisticated simplicity of lines, available in a choice of top quality materials. Even when an object is defined, technology intervenes to guarantee its purpose as a useful instrument for building the shape of the environment and for suggesting a different way of approaching the home space. Attico's salient feature is the original central three legged base with rounded corners, typical of the Milanese designer, made of cast aluminium, which can be used in different ways.
