FREESTYLE —
FERRUCCIO LAVIANI 2006

Freestyle is a modular system that exploits the endless combination possibilities of the pieces available to create linear and corner solutions with the greatest freedom in terms of size. The seats can be joined to backs in varying sizes symmetrically or asymmetrically, playing with the cover colours to create combinations in different shades or more traditional single-colour solutions. Freestyle also has two types of arm: a classical piece that flank the structure level with the back or a side cushion that forms one with the seat. As well as the traditional seats there is also a trapezoid end piece, an island element that can further increase the possible composition forms. Freestyle is completed by additional back cushions in three sizes that can be used in the number and fabric type desired. The stitching on the front of the seat and arm lends further elegance to the product.

This symbol shows that the product has removable upholstery. Only qualified personnel can remove the upholstery of some of our products. If this information is pertinent, it will be included in the warnings section.

This symbol shows that the product is available on request in a fire resistant version that complies with the standards BS 5852 and TB 117-2013.
The buyer is responsible for checking to make sure that the product is suitable and compliant with the requirements for the designated use and the current applicable laws and standards for the destination and use of the product.

Dimensions in centimeters and inches. The right to discontinue and make changes is reserved. This information is based on the latest product information available at the time of printing.

TECHNICAL INFORMATION

SEAT
Internal structure is a solid firwood (Picea abies) frame and chipboard, with elastic straps. Padding in variable density high-resistance foam polyurethane. Light velvet cover.

SEAT WITH CUSHIONS
Internal structure is a solid firwood (Picea abies) frame and chipboard, with elastic straps. Padding in variable density high-resistance foam polyurethane. Light velvet cover. Cushion filled with flakes polyurethane and sterilised feathers, 100% cotton cover.

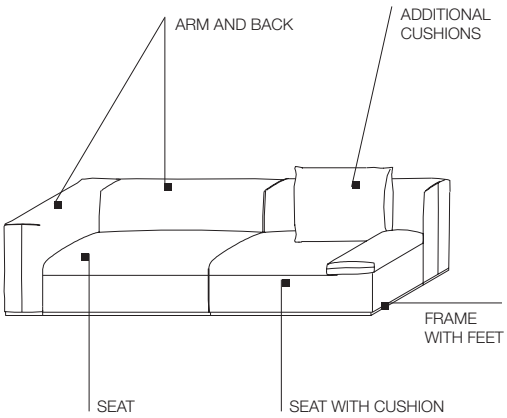
ARM AND BACK
Internal structure is a solid firwood (Picea abies) frame and chipboard, with elastic straps. Padding in variable density high-resistance foam polyurethane. Light velvet cover.

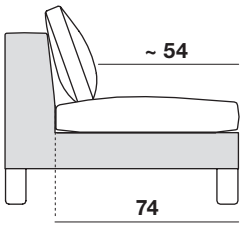
ADDITIONAL CUSHIONS
Cushion filled with flakes polyurethane and sterilised feathers, 100% cotton cover.

FRAME WITH FEET
Painted metal with adjustable feet in non-slip plastic.

REMOVABLE OUTER COVERS
(See attached card, specific for each cover).

AVAILABLE IN FIRE-RESISTANT VERSION TB117 AND BS5852





Seat depth for structure only, 74 cm
Seat depth with backrest cushion, ~ 54 cm
