TECHNICAL INFORMATION

TABLE STRUCTURE

Extruded anodized aluminium, painted, with internal metal frame and plywood crosspieces.

TABLE BASE

Wood particleboard panel with painted melamine facing.

LEGS

Die-cast aluminium: brushed, polished, chromed, or painted.

Internal metal brace and foot in non-slip plastic.

ECOTONE™ TOP

Slabs produced using recycled components with some veins highly visible and others less obvious, but always through-body that preserve the characteristics of performance and durability with the added extra of a more eco-friendly formula.

ECOTONE™ A constant commitment to research and innovation

The new generation of slabs with recycled components

Ecological, a resin derived from bio compounds

A silica content of less than 5%

A production process that uses largely energy from renewable sources, such as wind, solar and biomass

The almost total recycling of water used by the plants

ECOTONE™ Features

Waterproof

does not absorb liquids

Acid resistant

resists external aggressions

Fireproof

is heat resistant and non-flammable

Shock resistant

withstands impacts well

Anti-scratch

is difficult to scratch

Stain resistant

resists stains from many products and is non-porous
