

Molteni & C

HALF A SQUARE — MICHAEL ANASTASSIADES 2020

1—
3

The project is very minimalist in design but rich in materials, such as aluminium and marble. The structural frame, made of satin-finished extruded aluminium painted pewter and green, is assembled using sturdy die-cast legs. The combination of the parts results in a triangular shape with a brass finish that encompasses its distinctive aesthetics of elegance and design. The tops are in marble. Available in various rectangular and square sizes. In this project, Anastassiades' engineering background nearly eclipses his design background, leading to a unique and intriguing object.
