

FRONDA — MDT 2026

1—
3

An essential element in an Outdoor collection that coherently interprets Molteni&C's philosophy of the art of living, the Fronda parasol combines contemporary aesthetics, technical rigor and high performance. Designed to ensure maximum durability and comfort in outdoor spaces, it uses high-quality materials such as aluminum and technical fabrics, selected to withstand atmospheric agents while maintaining integrity and elegance over time. The aluminum structure, together with galvanized and painted metal components, defines a solid yet lightweight profile, available in two refined color variants: anthracite grey with dark technical fabric or total white, for harmonious integration into different architectural contexts. Designed in four versions, Fronda responds to the needs of public, residential and hospitality spaces, offering versatile solutions for different lifestyles.

Removable cover

The product is sent in multiple packaged and/or flat packed

The product may be used outdoors but requires particular care in the event of rain

Product suitable for collective uses (Contract)
