The new seating system reflects the Molteni&C corporate profile, based on two key words: tradition and technology, linked by the leitmotif of perfectly clean lines. A flexible and dynamic seating system, rich in content, which shows how research and craftsmanship have always been part and parcel of the company's DNA. Albert is a brave step forward in the search for a seating system conceived as a flexible and disarticulatable structure, that can reshape the new complexity of modern living, marked by extreme planning.
