

## HECTOR NIGHT — VINCENT VAN DUYSSEN 2021

1—  
11

Hector Night is the protagonist of contemporary décor, the extraordinary expression of versatile and functional features expressed in a high quality design solution. Elegance, lightness and compositional simplicity: Hector Night interprets space with absolute design freedom, allowing to organise floor, ceiling or wall-mounted compositions as desired.

MODULARITY

Molteni & C

2-3 –  
11

- 1 Ceiling/wall-mounting bracket
- 2 Glass shelves with LED lighting optional  
power supply unit for remote control
- 3 Eco Skin shelves
- 4 Corner shelves, veneered or covered with Eco Skin  
with LED lighting optional
- 5 Shoe shelves
- 6 Laundry sack
- 7 Wall-mounted or freestanding drawer units
- 8 Mirror

 **Modularity**  
Centre distance modularity 695/859/1023 mm + 45 mm  
for finished dimension

TECHNICAL INFORMATION	
Mounting bracket	Painted extruded aluminium.
Shelf frame	Painted aluminium, made up of moulded die cast parts and extruded parts.
Shelf insert	- Extra-clear transparent or smoked tempered glass. - Melamine finished chipboard panel. - Chipboard panel with Eco Skin.
Drawer unit	Melamine finished chipboard panel.
Drawer unit top	- Extra-clear transparent or smoked tempered glass with sablé grey perimeter screen printing. - Painted layered panel.
Mirror frame	Painted aluminium, made up of moulded die cast parts and extruded parts.
Clothes rod	- Painted extruded aluminium. - Extruded aluminium with Eco Skin.
Shoe shelf insert	Sheet metal painted black and covered in Eco Skin.

## TECHNICAL INFORMATION

### UPRIGHT

Painted extruded aluminium.

### SHELF FRAME

Painted aluminium, made up of moulded die cast parts and extruded parts.

### SHELF INSERTS

- Extra-clear or smoky tempered glass.
- Melamine finished chipboard panel.
- Chipboard panel with Eco Skin.

### DRAWER UNIT

Melamine finished chipboard panel.

### DRAWER UNIT TOP

- Extra-clear or smoky tempered glass with sablé grey perimeter screen printing.
- Painted laminated panel.

### MIRROR FRAME

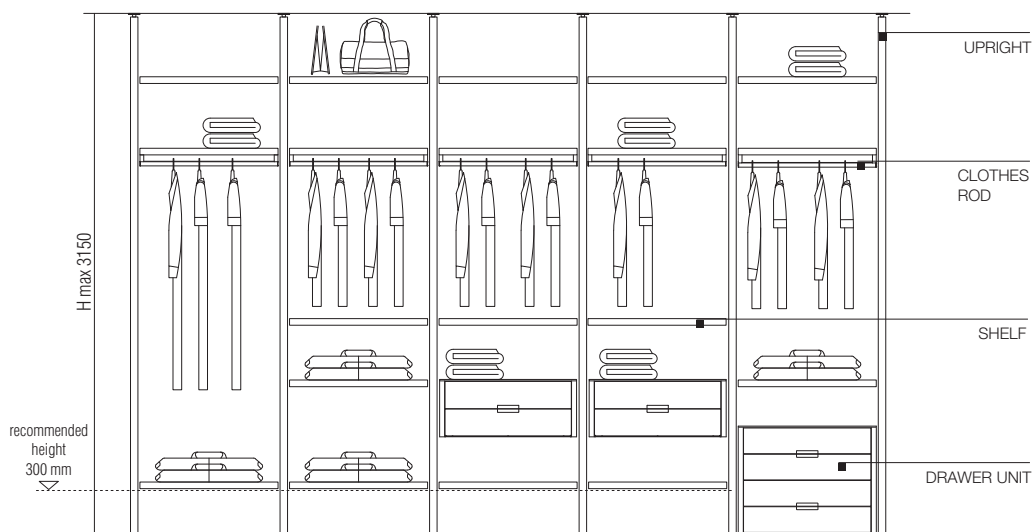

Painted aluminium, made up of moulded die cast parts and extruded parts.

### CLOTHES ROD

- Painted extruded aluminium.
- Painted extruded aluminium with Eco Skin.

### SHOE SHELF INSERT

Sheet metal painted black and finished in Eco Skin.

## NOTES

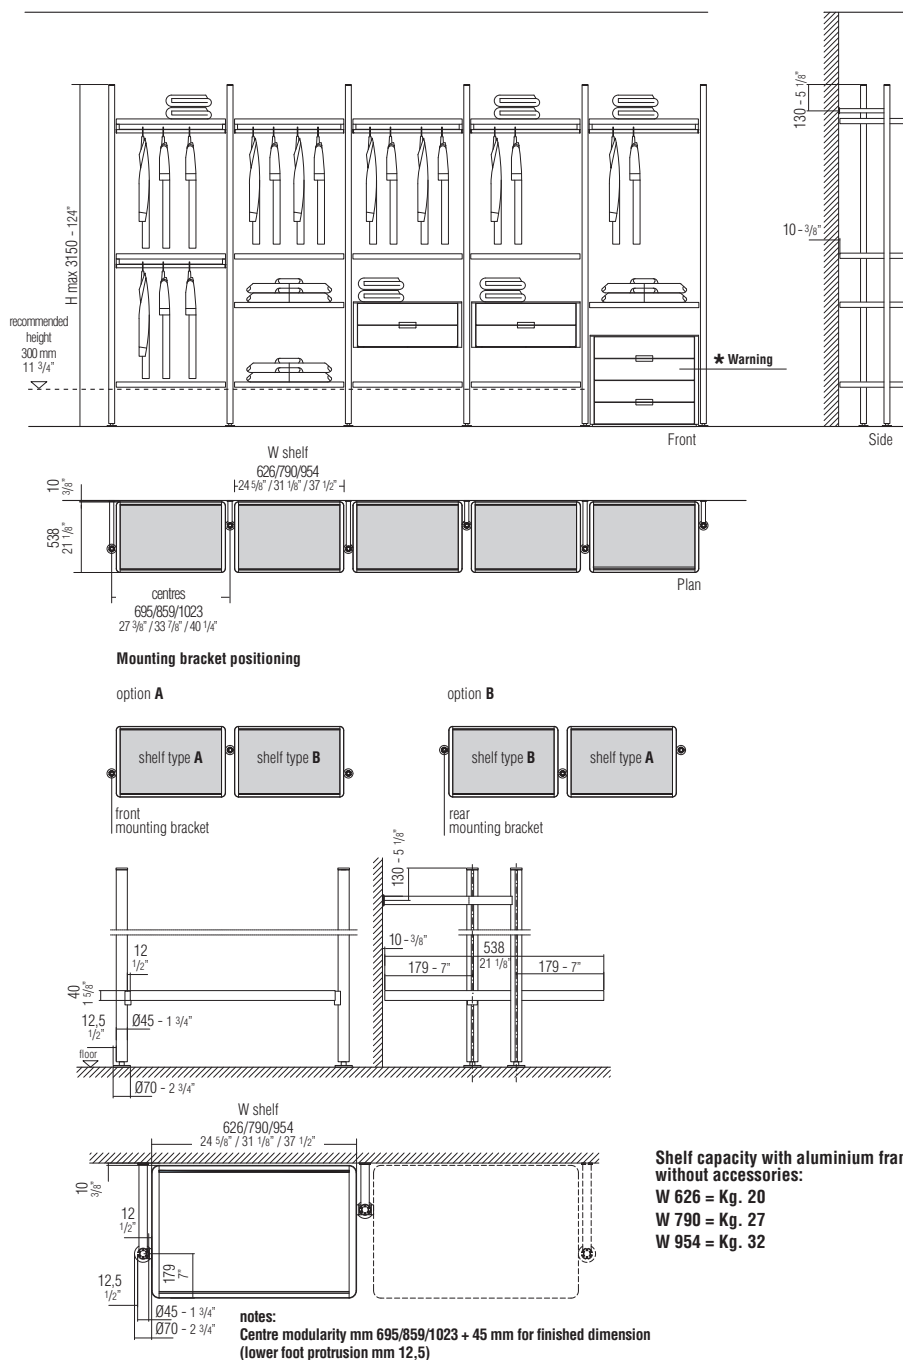

- The mounting bracket, H max 3150, can be made to measure, at no extra cost.
- The depth of the walk-in closet cannot be reduced.
- Frame shelves can be reduced in width, at an additional cost each.  
Minimum reduced shelf measurement 300 mm (centre distance of mounting brackets).
- The corner shelf can in no way be reduced.
- The height positioning of the shelves and drawer units is at the customer's discretion.
- The positioning of the mounting brackets cannot be changed.
- The system involves anchoring the mounting brackets to the wall and floor.

- Compositions with lighting must have a lower shelf (recommended position 300 mm from the ground) that is either melamine or comes with an Eco Skin finish for each module.  
All these shelves must be aligned as necessary for the electrical connection (see details on p. 218/219 price list).
- ★ In the presence of a lighting system, floor-standing drawer units can only be inserted into modules where the lower shelf it is not mandatory (see on p. 218/219 price list).

option B

note:  
For making ceiling mounting brackets,  
communicating the height of the room is necessary  
and sufficient. In the case of unaligned dimensions,  
check the tolerances indicated below.

Shelf capacity with aluminium frame  
without accessories:  
W 626 = Kg. 20  
W 790 = Kg. 27  
W 954 = Kg. 32

## CORNER COMPOSITION EXAMPLES

With Hector Night, it is possible to make "L" or "C" shaped corner compositions.  
Such compositions are obtained either by using a corner shelf or by combining linear modules.  
Such compositions can be obtained by using wall or ceiling mounting brackets.

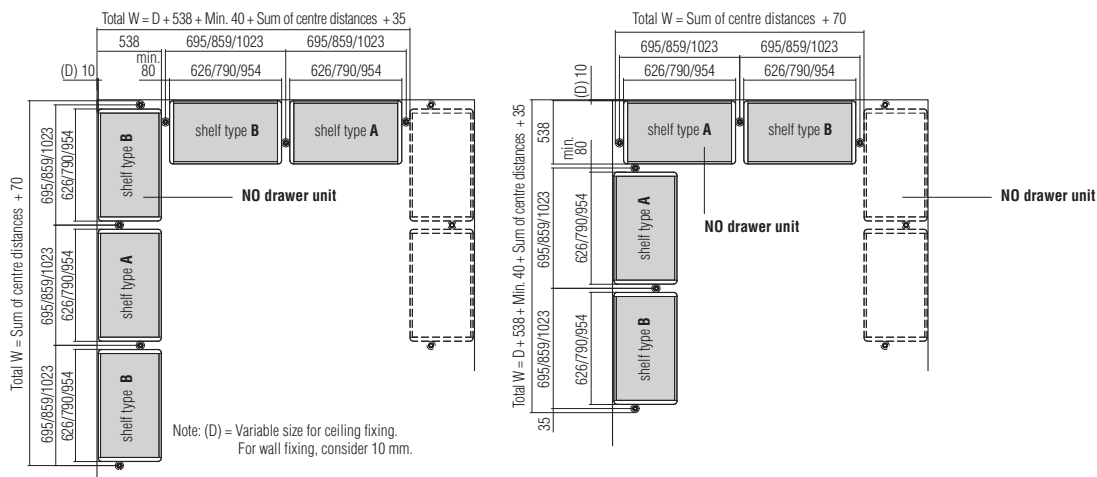

### Compositions with shelves with a 90° angle

The corner module can be created with shelves with a melamine or Eco Skin insert and a clothes rod.  
The corner shelf can in no way be reduced.  
The position of the mounting brackets is always at the front and cannot be changed.

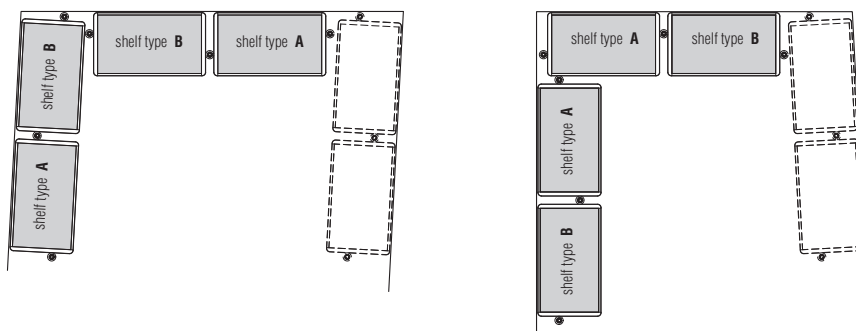

### Linear combined compositions

There are no initial mounting bracket constraints for such compositions.  
No drawer unit can be inserted in the corner module.  
For plans with angles greater than or less than 90°, the side of the composition can be tilted to be parallel to the wall.

### Examples of plans with angle greater or lesser than 90°

DIMENSIONS

Notes

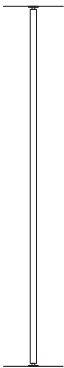

- The mounting bracket, H max 3150, can be made to measure, at no extra cost.
- Frame shelves can be reduced in width, at an additional cost each.  
Minimum reduced shelf measurement 300 mm (centre distance of mounting brackets).
- The corner shelf can in no way be reduced.
- The corner shelf does not come with a glass insert.
- The dealer is tasked with choosing the most suitable and safest fixing means for each specific situation.
- We recommend a scrupulous preliminary check of the structural state of the ceilings or walls before ordering and installing the Hector Night unit.
