EUGÈNE —
CHRISTOPHE DELCOURT 2025

Eugène armchair, characterized by an enveloping and sinuous profile, is designed to offer a welcoming seating experience. The base and the internal structure are made of Polimex, an innovative material that emphasizes environmental sustainability through the use of recyclable materials thereby contributing to a significant reduction in CO_2 emissions and environmental responsibility in high-quality furniture. It features a glossy finish that enhances and enriches the aesthetic. The seat is available with either a textile or leather covering.

This symbol shows that the product has removable upholstery. Only qualified personnel can remove the upholstery of some of our products. If this information is pertinent, it will be included in the warnings section.

This symbol shows that the product is available on request in a fire resistant version that complies with the standards BS 5852 and TB 117-2013.
The buyer is responsible for checking to make sure that the product is suitable and compliant with the requirements for the designated use and the current applicable laws and standards for the destination and use of the product.
