## JULIAN — VINCENT VAN DUYSSEN 2026

1—  
6

Il sistema modulare Julian si distingue per la sua presenza imponente e per la profondità generosa della seduta, pensata per offrire comfort e adattabilità alle preferenze individuali attraverso cuscini e poggiatesta sapientemente calibrati. Le cuscinature sono progettate con cura per offrire una seduta morbida ed elastica, mantenendo al contempo un'estetica pulita ed elegante. La combinazione di densità e dimensioni è studiata per garantire un sostegno ergonomico equilibrato, mentre la bordatura distintiva ne armonizza l'aspetto complessivo. La completezza dei moduli - dagli elementi terminali e centrali, alle isole e ai tavolini-bracciolo di nuova concezione - apre a infinite possibilità compositive, permettendo a Julian di adattarsi con naturalezza a qualsiasi ambiente, interpretando lo spazio con equilibrio e libertà. Julian si combina alla perfezione con il tavolino Eter, sempre di Van Duysen, la cui versione curva permette di creare composizioni più avvolgenti e arrotondate.
