

## GLISS MASTER — Isola e Cassetiera componibile VINCENT VAN DUYSSEN 2025

1—  
9

Il sistema di isole e cassettiere componibili nasce dall'idea di Gliss Master ed è progettato per adattarsi completamente alle esigenze di arredo di ogni cabina armadio. Mantenendo i moduli e i vani interni del sistema Gliss Master, offre un'organizzazione pensata per ottimizzare l'utilizzo dello spazio, con finiture che richiamano quelle degli armadi. Il sistema è caratterizzato da una maniglia Hold sui frontali dei cassetti ed è disponibile in diverse configurazioni, con 3, 4 o 5 cassetti, permettendo di scegliere l'altezza che meglio si adatta agli spazi. Pensata per essere il fulcro della cabina armadio, l'isola offre una soluzione bifacciale che consente una fruibilità ottimale da entrambi i lati. Il sistema è completamente personalizzabile nelle dimensioni e configurazioni.

## FINITURE

### Avvertenze

- Non sono possibili riduzioni di alcun genere o modifiche alle tipologie previste.
- Non sono realizzabili isole con cambi d'altezza.

**La cassetiera deve sempre essere fissata a muro.**

**MODULARITÀ**

**Modularità**

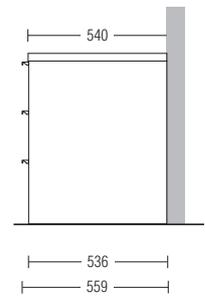

**H struttura**  
 (escluso spessore del top)

**Isola**

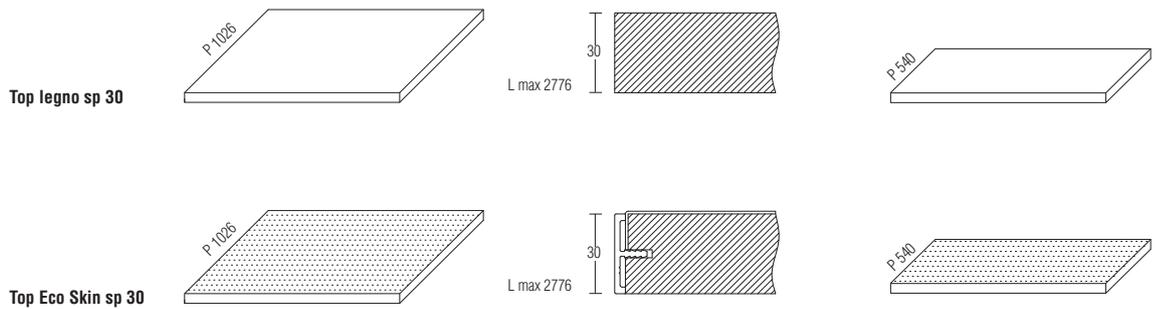

**Cassetiera**

La cassetiera deve sempre essere fissata a muro con antiribaltamento in dotazione

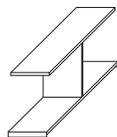

**Top di finitura**

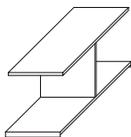

Nelle composizioni di lunghezza superiore alla misura massima prevista per il top in un unico pezzo, sarà possibile realizzare top giuntati SOLO nelle versioni nobilitato, laccato opaco o essenza. La giunta sarà eseguita sempre in corrispondenza di una spalla centrale.

## DIMENSIONI

### Sistema di chiusura per cassetti

I cassetti delle isole e cassettiere componibili possono essere dotati di sistema a chiusura multipla.

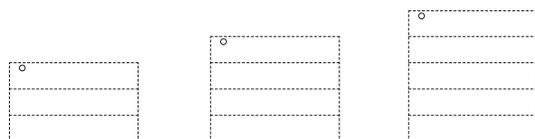

Tramite un'unica serratura con chiave applicata sul primo cassetto in alto è possibile chiudere tutti i cassetti. Tale sistema può essere applicato a tutte le larghezze di cassetto.

La chiusura multipla avviene grazie all'azionamento, tramite la serratura, di una barra con perni incassata nella spalla.

### Avvertenze

La finitura della chiave è sempre nichelato.
