Elain, is a cosy, curvaceous, little armchair designed to fit easily into any setting. Consisting of just two parts, a seat and a backrest, which come together to form a perfectly rounded object that invites you simply to sit down. Ideal for use alongside sofas also designed by Vincent Van Duysen, or even on her own as a comfy armchair or with a twin to create discreet little conversation corners. Elain is not just a stay at home chair but one that loves to make an appearance in public hospitality spaces such as hotel or office lobbies. Whether upholstered in quality textiles or in soft leather, Elain is always herself: a pretty, sophisticated little chair, featuring snug, welcoming lines, thanks to the padded seat and back.
