

VIBIA × Molteni&C 2026

Meridiano

Meridiano introduces a new dialogue between object, light, and outdoor space. Its design merges material and illumination into a single body, redefining how outdoor furniture can interact with the environment. Its sculptural form evokes both stability and lightness, blending seamlessly into terraces, gardens, or open-air lounges. Available in Nuvia White and Selva Green, Meridiano balances visual serenity with technical precision, offering a flexible, multifunctional solution that harmonizes with the surrounding architecture and landscape. Rooted in a philosophy of understated elegance, Meridiano embodies versatility and subtlety, enhancing the outdoor experience while providing both comfort and luminous ambiance.

Closer

Closer introduces a new poetic language to the Outdoor collection, redefining the relationship between object, light, and space. Conceived to inhabit both exterior and interior worlds with equal ease, it embodies an idea of quiet portability — a luminous presence that accompanies rather than imposes. Its silhouette suggests movement and softness: a suspended shade that wraps the light, directing it downward in a delicate, diffused glow. The gesture is simple, almost instinctive, like carrying light from one room to another, or setting it gently beside a gathering of friends at dusk. Rooted in a philosophy of essentiality, Closer combines texture, warmth, and technical precision. Light becomes tactile — subtly guided, dispersed in gradients, creating a soft hierarchy across surfaces. Whether placed beside a lounge chair, above an outdoor dining setting, or within a living room, Closer is designed to dissolve boundaries. The lamp becomes an atmospheric bridge between worlds: inside and out, day and evening, object and environment.

Out

Out introduces a refined approach to outdoor lighting, redefining the dialogue between object, light, and the surrounding environment. Designed to illuminate open spaces with downward, softly diffused light, it generates a subtle hierarchy across surfaces, highlighting textures and creating atmosphere without imposing itself. Its form evokes quiet movement and presence: a light that is both functional and poetic, able to define outdoor corners, terraces, or gardens with a gentle glow. This version of Out is freestanding, offering flexible placement without the need for permanent installation. Rooted in a philosophy of understated elegance, Out balances technical precision with visual serenity. It frames moments of conviviality or calm reflection, creating atmospheres that feel intimate, natural, and harmonious with the surrounding architecture and landscape.

The product may be used outdoors but requires particular care in the event of rain

Product suitable for collective uses (Contract)

The product is sent in multiple packaged and/or flat packed
