REVERSI'14

STUDIO HANNES WETTSTEIN

TECHNICAL DRAWING

Reversi '14 reveals a strong, rational personality and affirms its reputation for comfort and warmth. The 3-position backrest mechanism makes it possible to change the seat depth to create a rational space for work and a welcoming space for relaxing - both on the same sofa. Reversi '14 offers excellent modular solutions - its logical components can be assembled in a wide range of compositions that include linear elements, corner elements, chaise longue pieces and poufs. The structure in polyurethane foam in different thicknesses holds comfortable seat cushions. Backrests are organised in two configurations: cushions adjacent to one another to occupy all available space, and cushions spaced apart.
